### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The subject matter of the independent claims could either not be found or was not suggested in the prior art of record. The subject matter not found was a device that is used for fluid control, wherein the device is a valve arrangement, with the valve consist essentially of only one single stem, connected to a mushroom shaped head (this structure resembles a mushroom head, which is a curved like structure that is attached to the single stem), wherein the mushroom shaped head has an apex, that comes into contact with a stopper within the valve arrangement. The stopper causes the mushroom shaped head to deform and allow fluid to pass over the valve structure. Other independent claims, discuss the method of use of this device.

The independent claims also include other patentable subject matter in combination with the other elements or steps of the claim not mention in the above paragraph.

The examiner would also like to note that since the transition phase being used is "consisting essentially of" limits the claims to the structure only recited and some other minor details, but not significant structural elements. Therefore, the valve cannot have any holes or any other structure that would allow fluid to pass through, since the patentability is drawn to the deformation of the mushroom head with the stopper.

The closest prior art (Franz – USPN 4,845,487) fails to teach the apex engaging the stopper, and the valve also has other significant structure drawn to the valve, which is not allowed due to the transitional phase.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Matthew F. DeSanto whose telephone number is 571-272-4957. The examiner can normally be reached on Monday-Friday 9:30-6:00.
